Planned treatment:
Brain surgery with one-day-stay on Intensive Care Unit (ICU)

Dear Mr. Predonu,

herewith please find our estimated cost calculation for your planned treatment in our hospital.

Estimated total costs for your hospital stay of approximately 14 days and medical treatment including surgery will amount to **about € 61.000,-**.

Estimated total costs:

Flat fee*)	23.361,47 €
Medical and accomodation costs	37.471,41 €
Estimated total costs	60.832,88 €

*)Please note that the flat fee to be paid for your specific diagnosis and treatment - regardless of the actual length of your hospital stay of up to 14 days - is **EUR 23.361,47**. The estimated length of your hospital stay is based on general medical statistics in Germany and your preliminary diagnosis at the time of this cost estimation.

Any further days of your in-hospital stay beyond the timeline stated above will be charged additionally on a daily basis according to our price list (basic service, departmental rate, and/or intensive care).

The flat fee includes: Basic service, departmental rate, intensive care (according to our price list). The flat fee does not include prices for special medical services according to our price list. Such special medical services will be charged separately for the whole period of your in-hospital stay (i.e. from the first to the last day).

Details on the flat fee:

Basic service	14 days	x	426,99 €	=	5.977,86 €
Intensive care	1 day	x	2.688,54 €	=	2.688,54 €
Departmental rate	13 days	x	1.130,39 €	=	14.695,07 €
Flat fee					23.361,47 €

Estimated costs for treatment fees, fees for special medical services and planned examinations are stated by the following "Details on Accommodation and Examination-Costs":

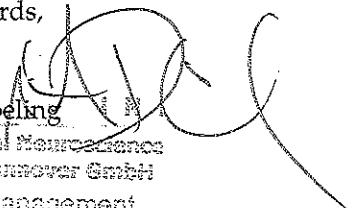

Single room	14 days	x	186,16 €	=	2.606,24 €
Anesthesia				ca.	2.000,00 €
Individual OR fee based on duration of intervention, use of Hybrid OR (MRI,CT,Angio) and use of neurophysiological monitoring				=	5.865,17 €
Expected radiologic diagnostics (x-ray, CT, MRI, MRA, functional MRI)				ca.	5.000,00 €
Third parties (laboratories [blood tests, hormone testings, histology, microbiologic testings]; external medical consultants [internal medicine, ENT, ophthalmologist etc.])				ca.	5.000,00 €
Physiotherapy				ca.	1.000,00 €
Surgical procedures and medical treatment fee				ca.	16.000,00 €
Accommodation- and examination-costs					37.471,41 €

Please note that this estimated calculation is based on the assumption of normal medical procedures. However, the actual medical procedures will depend on the patient's condition during the hospital stay. If a more extensive medical treatment becomes necessary and/or in case of a more complicated clinical course, the amounts shown above will increase according to the actual duration of the hospital stay.

The doctor's fee will be stated and issued according to a separate agreement between the patient and the doctor authorized for invoicing. Due to various specific regulations of health insurance companies, full reimbursement by health insurances cannot be guaranteed. All amounts payable without deductions.

Please note that costs for an accompanying person are not included, as well as costs and services of a private patient coordinator. All patient support service matters have to be arranged between the patient and the private patient coordinator themselves.

Kind regards,

Dajana Ebeling
